

RE: [External] - ABC BOX REC

** A PROBLEM THAT IS JUST GETTING WORSE

I have become increasingly frustrated by the WAY Box REC – (Marina) has single handily decided what fight results shall be included in the ABC Data base – BOXREC just like Fight fax is a record keeper – that is it – they are NOT a Commission – BOXREC does NOT decide what is a good result and what is NOT – the FACT is that if a boxing result comes in from a Commission (anywhere in this world) – that result MUST BE POSTED.

If Box Rec feels the result is not legit – than they MUST send that result to the Boxing Registry Committee or to the ABC Board of Directors for a final decision – BOX REC on their own cannot make this call - The ABC Board may decide that the result is suspicious than it goes into the ABC data base with the RED marking that signifies the result is not verified. Then it is up to each Commission (NOT BOXREC) to decide if they want to use this result (and possible suspensions) in determining match-ups

If Box rec just on their own decides a result does not go in – and that result includes a Boxer that should be under SUSP from a KO/TKO – that that puts THE ABC Commissions in a "bad situation"

BOX REC is simple a record Keeper and NOT a regulatory body - they are not a COMMISSION – they have NO authority to NOT put in a result – that sole authority is with the ABC
